Python Developer

PROFESSIONAL SUMMARY

Python Developer with expertise in Python, Object-Oriented Programming (OOP), Data Structures and Algorithms, SQL, and REST APIs. Experienced in developing console-based applications, implementing file handling, exception handling, and modular architecture. Strong analytical and problem-solving skills with a focus on writing efficient, reusable, and maintainable code. Committed to continuous learning and delivering high-quality software solutions in Agile development environments.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Core Python: Object-Oriented Programming (OOP), Functions, Modules, File Handling, Exception Handling, Collections, Lambda Functions, Comprehensions, Debugging

Databases: PostgreSQL, MongoDB | SQL Queries, Database Design, DBMS Fundamentals

APIs: REST APIs, JSON

Concepts: SDLC, Agile Methodology, Version Control, Problem Solving, Data Structures & Algorithms

Tools & Platforms: Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

Manual Test Engineer — Straive

Apr 2025 – Apr 2026

- Executed functional, integration, regression, and system testing for educational-domain applications, ensuring software quality and release stability.
- Designed and executed detailed test cases, identified software defects, and collaborated with developers to validate bug fixes.
- Managed defect lifecycle, sprint tracking, and issue reporting in JIRA within Agile development environments.
- Performed root-cause analysis and debugging support, improving application reliability across multiple release cycles.

PROJECTS

Banking Management System

Python, OOP, File Handling, Exception Handling

- Built a menu-driven banking management system in Python supporting account creation, deposits, withdrawals, balance inquiry, and transaction history.
- Designed reusable account modules using Object-Oriented Programming concepts such as classes, constructors, inheritance, encapsulation, and method abstraction.
- Implemented file-based data persistence to securely store and retrieve customer and transaction records across application sessions.
- Developed comprehensive input validation and exception handling to prevent invalid operations, including insufficient balance, invalid account numbers, and incorrect user input.
- Structured the application using modular functions to improve maintainability, readability, and scalability while following clean coding practices.

EDUCATION

Bachelor of Engineering, Computer Science and Engineering

2020 – 2024

SNS College of Technology, Coimbatore | CGPA: 8.38 / 10

Higher Secondary Certificate (HSC)

2019 – 2020

Kamarajar Matriculation Higher Secondary School | Percentage: 63.4%

Secondary School Leaving Certificate (SSLC)

2017 – 2018

Kamarajar Matriculation Higher Secondary School | Percentage: 75.2%

CERTIFICATIONS & ACHIEVEMENTS

- SQL Certification
- Python Programming Certification
- Regular coding practice on LeetCode and HackerRank — Data Structures, Algorithms, and Problem Solving
