Python Developer | Full Stack Developer | AI Developer

SUMMARY

Python Developer with 1 year of professional software testing experience and hands-on experience building full-stack applications using Python, Django, Django REST Framework, React.js, PostgreSQL, and JWT. Strong foundation in Object-Oriented Programming, Data Structures and Algorithms, SQL, REST APIs, and database management. Experienced in developing secure and scalable applications with authentication, transaction processing, API integration, validation, exception handling, and automated testing. Strong problem-solving and debugging skills with a focus on writing clean, reusable, and maintainable code.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Frameworks & Libraries: Django, Django REST Framework (DRF), React.js, Axios

Core Python: Object-Oriented Programming (OOP), Data Structures & Algorithms, Functions, Modules, Exception Handling, File Handling, Collections, Lambda Functions, Comprehensions, Debugging

Databases: PostgreSQL, MongoDB, SQL Queries, Database Design, DBMS Fundamentals

Web & APIs: REST APIs, JSON, HTTP Methods, API Integration, JWT Authentication

Testing: Unit Testing, API Testing, Functional Testing, Regression Testing, pytest, Postman

Tools & Platforms: Git, GitHub, VS Code, JIRA

Development Practices: SDLC, Agile Methodology, Version Control, Problem Solving

PROFESSIONAL EXPERIENCE

Manual Test Engineer — Straive

Apr 2025 – Apr 2026

- Executed functional, integration, regression, and system testing for educational-domain applications, ensuring software quality and release stability.
- Designed and executed detailed test cases, identified software defects, and collaborated with developers to validate bug fixes.
- Managed defect lifecycle, sprint tracking, and issue reporting in JIRA within Agile development environments.
- Performed root-cause analysis and debugging support, improving application reliability across multiple release cycles.

PROJECTS

Banking Management System | *Python, Django, DRF, React.js, PostgreSQL, JWT*

- Developed a full-stack banking application with user authentication, account management, fund transfers, and transaction history.
- Developed RESTful APIs using Django REST Framework and integrated React.js frontend using Axios.
- Implemented JWT authentication, input validation, exception handling, and secure transaction processing.
- Implemented PostgreSQL database transactions and row-level locking to prevent concurrent transaction errors.
- Created automated backend tests for authentication, transfers, validation, and concurrent transactions.

EDUCATION

Bachelor of Engineering, Computer Science and Engineering

2020 – 2024

SNS College of Technology, Coimbatore | CGPA: 8.38 / 10

Higher Secondary Certificate (HSC)

2019 – 2020

Kamarajar Matriculation Higher Secondary School | Percentage: 63.4%

Secondary School Leaving Certificate (SSLC)

2017 – 2018

Kamarajar Matriculation Higher Secondary School | Percentage: 75.2%

CERTIFICATIONS & ACHIEVEMENTS

- SQL Certification
- Python Programming Certification
- Regular coding practice on LeetCode and HackerRank — Data Structures, Algorithms, and Problem Solving
